

Dear John:

Please forgive my long Jules Engel diatribe. It's just that I've ~~had~~ had 35 years of this sort of nonsense, and it's time to fight back. Some day, ask me about the Draney Labor Board trial. In case you didn't know - I was responsible for Hitler overrunning the Netherlands - among other misdeeds.

Enough of this: I've re-read your article and it sounds even better, when my blood pressure has subsided. I particularly like the Tissa David portion. She's doing a charming job. It's delicate, sensitive and feminine - quite unlike what a man would produce.

Emery Hawkins' stuff is astounding - so much so I sent him a fan letter --- the first one in my life.

Thanks again for the plug - pertaining to my "How to". I hadn't gotten ~~to~~ that far, when I wrote you last.

My count was wrong --- there are actually 66 hours of taped lectures - which will undergo a bit of editing. These lectures ~~do~~ don't fully cover the subject by any means.

Dick Williams is determined to make the project a reality - and he's plugging it like mad. His secretary starting putting the taped material on paper, several days ago.

most cordially

Art
